

Type of headsail

- Cruising Top-Rig
- or
- Race 7/8 Rigg

Track system

GA =cm

GA = Distance between head pin and At the beginning of the track

FA =cm

FA = Distance between head pin and At the beginning of the track

FE =cm

FE = Distance between head pin and end of the track

GE =cm

GE = Distance between head pin and end of the track

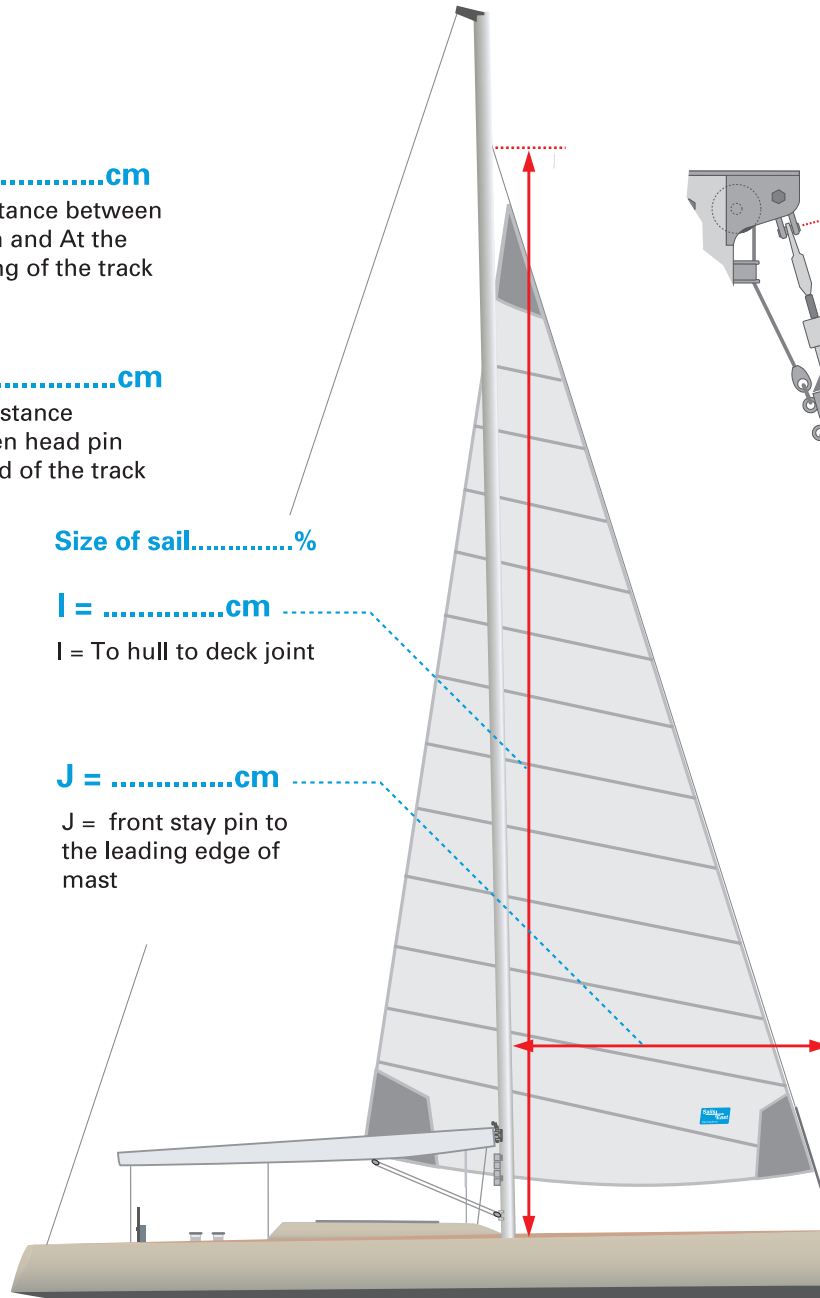

Size of sail.....%

I =cm

I = To hull to deck joint

J =cm

J = front stay pin to the leading edge of mast

Hanks

Furling sail

Fmax =cm

Fmax = Height of Forestay

T =cm

T = Maximum Luff of the sail

A =cm

A = the distance between tack shackle to the furling track entry

R =mm

R = Diameter of the track

B =cm

B = Height of tack shackle over deck
